Created:	Feb 14, 2026

Description

As a developer, I would like to implement an ad type selection page that allows users to choose between three ad formats: Text Ad, Image & Text Ad, and Video Ad. Each ad type should be displayed as a card with a distinct color and icon to clearly differentiate them. The cards should be reusable components.

Acceptance Criteria

[ ] Three ad type cards displayed horizontally

[ ] Each card has an icon, label, and unique color

[ ] Cards are reusable components

[ ] Cards have rounded corners (12px radius)

Description

As a developer, I would like to build an analytics dashboard that displays ad performance data. The left panel should list ad types (Text Ad, Video Ad) separated by horizontal dividers. The right panel should display a line chart visualizing performance metrics over time.

Acceptance Criteria

[ ] Split-panel layout with left sidebar and right content

[ ] Left panel lists at least 2 ad types with dividers

[ ] Right panel displays an interactive line chart

[ ] Responsive layout that works on desktop screens

Description

As a developer, I would like to create a user experience survey page styled with Skyscanner branding. The page should include 5 questions with text input fields for user responses and a blue Submit button at the bottom.

Survey Questions

Q1: How often do you use Skyscanner to search for flights?

Q2: What feature do you find most useful?

Q3: How would you rate the overall user experience? (1-5)

Q4: What improvements would you like to see?

Q5: Would you recommend Skyscanner to a friend?

Acceptance Criteria

[ ] Page uses Skyscanner brand colors (#0770E3 blue, #F1F2F8 background)

[ ] 5 questions with input fields are displayed

[ ] Submit button is functional and styled in brand blue

[ ] Layout is clean, centered, and readable
